REVENUES

Total revenues in the second quarter of 2022 decreased by 25.4% to RMB191.6 million (US\$28.6 million) from RMB256.7 million in the same period of 2021, primarily due to the year-over-year decline in the Company's net advertising revenues.

Net advertising revenues in the second quarter of 2022 decreased by 31.1% to RMB160.5 million (US\$24.0 million) from RMB233.0 million in the same period of 2021, mainly due to the reduction in advertising spending of advertisers from certain industries, the intensified industry-wide competition and the negative impact of the COVID-19 outbreak in certain regions in China in the second quarter of 2022.

Use of Non-GAAP Financial Measures

To supplement the consolidated financial statements presented in accordance with the United States Generally Accepted Accounting Principles ("GAAP"), Phoenix New Media Limited uses non-GAAP gross profit, non-GAAP gross margin, non-GAAP income or loss from operations, non-GAAP operating margin, non-GAAP net income or loss attributable to Phoenix New Media Limited, non-GAAP net margin and non-GAAP net income or loss per diluted ADS, each of which is a non-GAAP financial measure. Non-GAAP gross profit is gross profit excluding share-based compensation. Non-GAAP gross margin is non-GAAP gross profit divided by total revenues. Non-GAAP income or loss from operations is income or loss from operations excluding share-based compensation. Non-GAAP operating margin is non-GAAP income or loss from operations divided by total revenues. Non-GAAP net income or loss attributable to Phoenix New Media Limited is net income or loss attributable to Phoenix New Media Limited excluding share-based compensation, income or loss from equity method investments, net of impairment, fair value changes in investments, net, and impairment of available-for-sale debt investments. Non-GAAP net margin is non-GAAP net income or loss attributable to Phoenix New Media Limited divided by total revenues. Non-GAAP net income or loss per diluted ADS is non-GAAP net income or loss attributable to Phoenix New Media Limited divided by weighted average number of diluted ADSs. The Company believes that separate analysis and exclusion of the aforementioned non-GAAP to GAAP reconciling items add clarity to the constituent parts of its performance. The Company reviews these non-GAAP financial measures together with the related GAAP financial measures to obtain a better understanding of its operating performance. It uses these non-GAAP financial measures for planning, forecasting and measuring results against the forecast. The Company believes that using these non-GAAP financial measures to evaluate its business allows both management and investors to assess the Company's performance against its competitors and ultimately monitor its capacity to generate returns for investors. The Company also believes that these non-GAAP financial measures are useful supplemental information for investors and analysts to assess its operating performance without the effect of items like share-based compensation, income or loss from equity method investments, net of impairment, and fair value changes in investments, net, which have been and will continue to be significant recurring items, and without the effect of impairment of available-for-sale debt investments, which have been significant and one-time items. However, the use of these non-GAAP financial measures has material limitations as an analytical tool. One of the limitations of using these non-GAAP financial measures is that they do not include all items that impact the Company's gross profit, income or loss from operations and net income or loss attributable to Phoenix New Media Limited for the period. In addition, because these non-GAAP financial measures are not calculated in the same manner by all companies, they may not be comparable to other similarly titled measures used by other companies. In light of the foregoing limitations, you should not consider these non-GAAP financial measures in isolation from, or as an alternative to, the financial measures prepared in accordance with GAAP.
